

TEAM ATHENA

DELMO, NEIL CARLO M.

VILLAFLOR, DJANISSE N.

BALDOS, MARY JHEZL B.

Week 1: Environment Setup and Core System Foundation

- *Set up Laravel using Laragon and VS Code*
- *Build login and dashboard scaffolding using Laravel Breeze*
- *Configure Google OAuth login, restricted to organization accounts only*
- *Design and build the Faculty dashboard, including the banner/ad space for research call announcements*
- *Set up navigation for Faculty users*
- *Develop Research Calls module for Faculty (view research calls, submit a research title for approval)*
- *Develop Title Approval module for Research Head (review and approve submitted research titles)*
- *Implement Faculty → Faculty Researcher role transition: upon title approval, Faculty automatically upgrades to Faculty Researcher and gains access to Faculty Researcher modules*

Week 2: Faculty Researcher and Research Head Modules

Faculty Researcher modules:

- *Research Call and Proposal Management (submit and manage the full research proposal, following title approval)*
- *Upload Budget Records*
- *Submit Quarterly Progress Reports*

- *Submit Terminal Reports*
- *Research Help Facility: Turnitin redirection link, AI-powered chatbot (research inquiries, system navigation help, Scopus-indexed journal/conference recommendations), in-system research manual*

Research Head modules:

- *Manage Research Calls*
- *Oversee Research Documents and Submissions*
- *Monitor Project Budgets*
- *Monitor Analytics*
- *Access Research Project Dashboard*
- *Approve Research Proposals (full proposal approval, exclusive to Research Head — upon approval, the research project is created and records are auto-populated)*
- *Generate Official Consolidated Reports (exclusive to Research Head)*
